1891.

MINUTES
OF THE
FIFTY-SECOND ANNUAL MEETING
OF THE
MEDICAL MISSIONARY SOCIETY IN CHINA.

The fifty-second annual meeting of the Society was held in Canton at the house of Messrs. Russell & Co. on the 23rd January. Present:—Dr. J. G. KERR, President, in the chair; Rev. A. P. HAPPER, D.D.; Rev. R. H. GRAVES, D.D.; S. P. REED, Esq.; Revs. H. J. VON QUALLIN, H. V. NOYES, E. Z. SIMMONS, W. BRIDIE, J. R. TAYLOR, O. F. WISNER, B. C. HENRY, D.D.; Mr. D. CINATTI, Consul for Portugal; Miss M. FULTON, M.D.; Mrs. KERR, Dr. LEUNG, Dr. WAN, Dr. SO-TO-MING, and Mr. J. M. SWAN.

The meeting was called to order by Dr. KERR, who, on taking the chair, requested Dr. HAPPER to open with prayer, after which the notice convening the meeting was read by the Secretary.

On the motion of Dr. HAPPER, seconded by Mr. SIMMONS, the minutes of the last meeting as presented were approved.

The Treasurer's account, duly audited, was presented, the following abstract being read by the Secretary:—

TREASURER'S ACCOUNT (Abstract).

1890	<i>Dr.</i>	
Dec. 31	To Canton payments per order Dr. Graves ..	\$2,412.46
	To balance carried forward to new account	2,534 14
		<u>\$4,946.60</u>
	<i>Cr.</i>	
Jan. 1	By balance of account rendered	\$2,223 33
Dec. 31	By cash from Bethel Fund, 1889	156 57
	By cash from Bethel Fund, 1890	300.00
	By cash from subscribers	1,883.66
	By cash from Dr. Kerr, books sold	255.09
	By interest	127.95
		<u>\$4,946.60</u>

After inspection, on motion of Dr. HENRY, seconded by Mr. BRIDIE, the Treasurers' account was accepted.

The Hospital account, also duly audited, was then presented, and the following abstract was read by the Secretary:—

CANTON HOSPITAL ACCOUNT (Abstract.)

Receipts.

Balance from 1889 account	\$ 220.20
Total miscellaneous receipts at the hospital	1,884 16
Cash from Messrs Russell & Co. (Treasurers)	2,012.46
	<u>\$4,116.82</u>

Expenditure.

Aid to poor, native supplies and sundries	\$ 493.54
Repairs and improvements	342.25
Printing and block-cutting	380.10
Wages	861.88
Foreign drugs and supplies	1,212.27
Outside dispensary appropriations	400 00
Cash to new account	426.78
	<u>\$4,116.82</u>

After inspection of the hospital account, on motion of Mr. REED, seconded by Mr. NOYES, it was accepted.

The following abstract of the report of the hospital and dispensaries was read by the Secretary :—

AT CANTON HOSPITAL.

	Males.	Females.	Total.
Out-patients (number of attendances)	16,193	4,544	20,737

Total number of in-patients ..	—	..	—	..	1,399
Total number of Surgical operations	—	..	—	..	3,719
Total number of visited in homes	—	..	—	..	449

The foregoing statistics show that the work under the patronage of the Society has been carried on with success during the past year. No special interruption has occurred either in the hospital or any of the branch dispensaries.

The literary work under the supervision of Dr. KERR has been continued, and the receipt of over four hundred dollars for medical books sold shows that such literature is appreciated by the Chinese. Six volumes of the work on Surgery are printed and the seventh and last volume is in press. Dr. J. MITCHELL BRUCE's "General Therapeutics" is being translated by Dr. WAN. A vocabulary of diseases has been prepared, as part of a dictionary of medical terms in English and Chinese, now in process of preparation by a committee appointed by the Medical Missionary Association of China. Daily religious services in the chapel have been held as usual, and evangelistic work has been carried on in the hospital wards and at the branch dispensaries. The results in this line have been more gratifying than usual. Nineteen have united with the church, and quite a number of others continue to show a special interest in Gospel truth, who, we may hope, will eventually be received into the church.

The two hospital schools have been continued as usual with good attendance and gratifying results. We may note a temporary change in the hospital staff caused by the absence of the lady physician, Dr. MARY W. NILES, who is at home on leave, but who, we trust, will at an early period return to her important work among the women. Special thanks are due to Dr. MARY FULTON for the ever ready and valuable assistance she has rendered in the women's wards of the hospital.

On motion of Dr. HAPPER, seconded by Mr. REED, the report of the hospital and dispensaries was accepted and the usual number ordered to be printed in English and Chinese.

The following report of the Managing Committee was next presented —

“REPORT OF THE MANAGING COMMITTEE.

“Your committee report—

“1st—That the Hospital buildings are in good repair, and that only ordinary repairs will be needed during the current year.

“2nd.—A new arrangement has been made for the instruction of the medical class, there being daily recitations under Dr. LEUNG KIN CHO, one of the graduates, who is well qualified for this work. A class-room being required, it is proposed to erect a second story over the wards to the north of the chapel, giving additional room for patients, and to use one of the rooms in the College ward as a class room. Your committee recommend that authority be given them to make this addition if after further consideration it be thought advisable, and that the sum of \$1,500 be appropriated for this purpose.

“3rd.—The following estimates are recommended for the current year:—

For current expenses of hospital.....	\$1,800
„ Foreign medicines and supplies.....	1,0 0
„ repairs and improvements	300
„ cutting blocks for medical books and printing	350
„ Yeungkong hospital and dispensary (Dr. J. C. Thomson)	200
„ Kiungchow hospital and dispensary (Dr. H. M. McCandliss).....	200
„ Sz Pai Lau and Tung Tak St. dispensaries (Dr. Mary Fulton,).....	150
„ Sz Ui dispensary (Dr. Graves)	150
„ Lin Chow dispensary (Dr. Machle)	100
	<hr/>
	\$4,250

“Signed for Committee,

R. H. GRAVES, *Chairman.*”

After some brief remarks the report and estimate were, on motion of Mr. SIMMONS, seconded by Dr. HENRY, duly accepted.

In connection with the item in the report of the Managing Committee referring to an additional story over the wards to the north of the Chapel, Mr. SIMMONS moved that the matter be left to the discretion of the Managing Committee, the sum to be expended not exceeding fifteen hundred dollars.

This motion, being duly seconded by Dr. HENRY, was carried.

The Chairman then referred in a very feeling manner to the death during the past year of the VEN. ARCHDEACON GRAY, LL.D., for many years a Vice-President of the Society.

On motion of Dr. HENRY, seconded by Dr. HAPPER, the following resolutions were unanimously adopted:—

“Resolved:—1.—That we have learned with deep regret of the death during the past year of the VEN. ARCHDEACON GRAY, LL.D., for many years a Vice-President of the Society.

“2.—That we express our most cordial recognition of the services he has rendered the Society in the past; that we place on record our high appreciation of his character as a Christian gentleman, of the beneficent influence of his most exemplary life and his long years of faithful service as chaplain to the foreign community in Canton, of his deep and continuous interest in all forms of Christian and benevolent work in China, of his studious investigation and knowledge of Chinese life and character as shown in several published volumes from his pen, of his generous hospitality, and many other noble and genial traits of character that caused him to be so invariably loved and respected by those who knew him.

“3.—That a copy of these resolutions be sent to his family.”

Remarks heartily endorsing the foregoing resolutions and expressive of high esteem and regard followed.

Dr. HAPPER said—It was my privilege and happiness to know ARCHDEACON GRAY all the time of his residence at Canton, and I

most heartily and sincerely concur in the estimate of the character and labours and services of our lamented friend as expressed so appropriately and truly in the resolutions of Dr. HENRY and this was the estimate and feelings of this whole community, as was expressed in receptions given to him on his departure and also on his return from his furlough. His memory will be long and warmly cherished by many who had knowledge of his way of life and received the manifestation of his sympathy and kindness. I most cordially concur in the adoption of this expression of our esteem and respect for his memory and of our sympathy for his family.

Rev. H. V. NOYES spoke particularly of Archdeacon Gray's earnest and faithful performance of his duties here, of his warm personal sympathy, and his special interest in mission work.

Dr. GRAVES spoke in terms of high appreciation of his character and life here, and mentioned particularly how at one time when missionaries were in a very embarrassed financial situation the VEN. ARCHDEACON had from his own private sources rendered them valuable relief.

The election of officers for the ensuing year was next in order. On motion of Dr. HENRY, seconded by Mr. NOYES, the Board of Officers was constituted as follows:—President, J. G. KERR, M.D.; Sen. Vice-President, Rev. A. P. HAPFER, D.D., M.D.; Vice-Presidents, Hon. W. KESWICK, Mr. W. H. FORBES, Hon. P. RYRIE, Mr. H. L. DALRYMPLE, Rev. JOHN CHALMERS, M.A., LL.D.; Rev. R. H. GRAVES, M.D.; Mr. A. ROWE; Mr. T. B. CUNNINGHAM; Mr. CHAS. SEYMOUR, U.S. Consul; Mr. C. ALABASTER, H.B.M. Consul; Mr. H. BUDLER, Consul for Germany; Rev. F. HUBRIG; Dr. D. J. MACGOWAN; Mr. G. D. FEARON; Dr. J. F. WALES. In Europe—Rev. Prof. J. LEGGE, D.D., LL.D.; Mr. ALFRED DUVAL; Mr. THEO. SAMPSON. In United States—Mr. DELANO. Treasurers, Messrs. RUSSELL & Co. Auditor, the Commissioner of Customs. Secretary, J. M. SWAN, M.D. Managing Committee—Rev. R. H. GRAVES, M.D.; Rev. W. BRIDIE; Mr. T. B. CUNNINGHAM, Mr. G. D. FEARON, and Dr. J. G. KERR.

On the motion of Dr. HAPPER, seconded by Mr. NOYES, a vote of thanks was passed, viz., to Dr. WALES and Dr. MARY FULTON, for assistance rendered on various occasions ; to Mr. Consul SEYMOUR and Mr. LEE U LIN, for their interest and assistance in obtaining subscriptions from the Chinese officials ; to the proprietor of the *China Mail*, for printing the annual report at a nominal price, and to the Customs Service, for special donations during the past year.

There being no further business the meeting adjourned.

J. M. SWAN,
Secretary.

J. G. KERR,
Chairman.

REPORT
OF THE
Medical Missionary Society's Hospital
IN CHARGE OF
J. G. KERR, M.D.; J. M. SWAN, M.D.;
AND
MARY W. NILES, M.D.
1 8 9 0 .

Another year has passed and the work of the hospital has been carried on without interruption.

Our annual report is herewith presented to the friends and patrons of the Society, feeling as we do that the record of the year's work will show that full returns have been made for the help they have so willingly afforded us.

It is impossible in this report to give an adequate idea of the amount of relief rendered to the suffering ones who come to the hospital, sometimes friendless and destitute. Nor can we fully record the gratitude that is in many ways expressed by them for the relief and help that is afforded.

The routine of hospital work continues the same as heretofore, the regular days for receiving out-patients being Mondays and Fridays; Tuesdays, Thursdays and often Wednesday, being reserved for surgical operations.

The patients in the wards are visited twice a day, this work in the summer time beginning at half-past five in the morning.

The Lady physician, Dr. MARY W. NILES, has been greatly missed from her post during the last half of the year, she having returned to America for a much needed rest. Special thanks are due to Dr. M. H. FULTON for the ever ready and valuable assistance she has rendered in the women's wards of the hospital.

Daily religious services in the chapel have been conducted by the native pastor Rev. KWAN LOI and the evangelist Mr. SZ TO, the Rev. B. C. HENRY taking two mornings in the week when in the city.

Evangelistic work has been carried on in the hospital wards, and during the year there have been received into the 2nd Presb. Church ten persons as a partial result of this work.

About twelve hundred notices of in-patients who have returned to their homes have been sent to the foreign missionary in charge of work nearest to where the patient lives. These notices give the address of the patient, age, occupation, time of admission and discharge from the hospital, whether educated or not and their attitude toward the Gospel. A large proportion of the patients have been found and many manifest a continued interest in Gospel truth several of whom are applicants for baptism.

The book table in each of the large wards supplying Christian literature has been well patronized by the patients.

The two hospital Schools have been continued as usual with good attendance and gratifying results.

The general table No. 1 gives the monthly statement of the attendance and work in the hospital.

Of the twenty thousand seven hundred and thirty-seven attendances of out-patients, eight thousand seven hundred and eight were new patients. Of this number the following diseases were met with most frequently :—

Leprosy	1245	cases.
Skin diseases (not including Leprosy) ...	1066	„
Eye diseases	944	„
Venereal diseases	920	„
Phthisis and Bronchitis	250	„

Operation for imperforate vagina	1	
Reduction of hernia of small intestine, from traumatism.	1	

The accompanying cuts page 16 are those of a patient operated on the latter part of the year.

The patient, aged fifty-eight years, a farmer from Tsing-ün district, was operated on for the removal of a large fatty tumor, which after excision weighed twenty-one and one half pounds. The patient made a speedy and full recovery, and was greatly rejoiced to be relieved of a burden he had carried for twenty years.

Tabular Statements No. 3 and No 4 report the cases of Urinary Calculi operated upon during 1890.

Medical Class.—There have been 20 names enrolled in the medical class during the past year. Eleven were male and nine female. During the first part of the year the instruction of the class continued on Wednesdays and Saturdays as heretofore, but in the Summer a change was made. DR. LEUNG KIN CHO, a graduate, and a young man of good attainments and excellent character, was employed to superintend the instruction of the class. Daily recitations on five days of the week are held, and each member of the class recites in two or three branches of study every day. Saturday is given to demonstrations, experiments, the use of the microscope, &c. Dr. MARY FULTON has taken much interest in directing the studies of the class and in aiding the teacher.

Much inconvenience has been felt for want of a suitable class room in which apparatus, specimens, &c., could be kept at hand for use. The application made to the Society by the Managing Committee will enable us to provide a room which will answer present purposes, and we will hope to receive liberal aid from friends in adding to our limited stock of apparatus, what is needed to give efficiency to the course of instruction.

One of our female graduates, Mrs. NG KWAN, has become a very efficient helper in the female wards, and has accompanied Dr. NILES and Dr. FULTON in attendance on difficult cases of childbirth, and she is now entrusted with cases of this kind, and has proved herself very skilful.

With the encouragement of Dr. FULTON and the ladies in charge of the Female Seminary, eight young women have entered the Medical class, and we hope to add to their number. We will be glad to receive from other female schools those of suitable age and good education who wish to acquire a knowledge of medicine. The position of teachers now filled by so many young women who have been educated in our Mission Schools has opened to the sex a new idea of the possibilities before them. In the practice of Medicine, now successfully pursued by several who have been educated in our class, they see another field of usefulness, as well as a means of livelihood.

YEUNG-KONG DISPENSARY REPORT.

JOS. C. THOMSON, M.D.

The medical work has progressed much as usual. Our time has been more taken up with itineration, in view of the extension of our field, particularly on account of the absence of Rev. W. J. WHITE, along several hundred miles of Coast-line from Macao to Muilok. A fuller general report is found embodied in that of the Mission. The work of such itineration bears a routine character, and we find little worthy of special remark. The statistics are appended. The Chinese saying is, that, “riding a horse or in a boat is seven parts dangerous,” and three or four experiences this year incline us to believe it, though other reasons caused my last trip to Yeung-kong to be almost entirely on foot some two hundred miles. We have a line of stations all the way, and to walk is quicker, cheaper and more advantageous generally.

The important event of the year was the establishment of the First Church of Yeung-kong, with the assistance of Revs. H. V. NOYES and A. BEATTIE on September 28th, and with the reception of six members by letter and the baptism of one adult and three infants. Four were also received by letter into the Chik-hom church, in which field are a number of applicants for baptism. The interest in medical missions is increasing in this general field, and there are several who have taken courses in the Canton Hospital School we could wish to use here to manifest the beneficent character of Christianity. In Sanning the Christians guarantee all the support of a medical assistant. The faithfulness of the Yeung-kong assistant is worthy of mention. Not to tarry on cases, we had hoped to have photographed a peculiar case of eye-ball protrusion at will, in which excision clear of the orbit would remove almost the entire eye. Unusual voluntary power is seen in another who can ox-like at will call back any small particle of matter from his stomach. A record of worm cases might read like "snake-stories." Opium is becoming more and more the indispensable evil, and measurably affects all efforts looking towards the betterment of the condition of this people.

The statistics of the year are as follow :—

	<i>Male.</i>	<i>Female.</i>	<i>Total.</i>
Out-patients attendances.....	9,589	6,659	16,248
In-patients.....	15	—	15
Operations	—	—	574
Treated at homes	—	—	165

On Itineraries, Out-patients 300, operations 100.

Our Account is as follows :—

<i>M. M. Society—</i>	<i>Dr.</i>	<i>Cr.</i>
By Appropriation		\$200.00
To Medicines.....	\$ 140.00	
To Wages	60.00	
	<hr/> \$200.00	<hr/> \$200.00

REPORT OF KIUNG CHOW HOSPITAL TO MEDICAL
MISSIONARY SOCIETY, 1890.

Visits of out-patients	...	8840	
In-patients	59 average stay of 14 days.
Visits to patients at homes	32	Deaths—in-patients, one; out-patients, two.	
Extraction of Teeth	...	370	
Hospital Operations	...	34	not including several hundred slight operations, such as opening abscesses, tapping, &c.

The in-patient work and surgical work would both have been large this year had there been suitable accommodations and assistance. People are slow about renting good buildings for Hospital purposes, fearing that some of the patients may die in the place. Have been reinforced by the arrival of Ko SAN YAU to be medical assistant, and he is picking up Hainanese. A few cases of particular interest.

Two men, one a soldier and the other civilian, arrived at nearly same time with syphilitic paralysis lower extremities. After thirty days and forty days respectively of Iodides, and Hyd. Bichlor., both patients were fully recovered.

A young man with Aseites from Malaria, and an immense spleen, was tapped in spite of all the idlers pronouncing him moribund. After fifty days of treatment directed against chronic malarial poisoning he returned to his home and that neighborhood straightway sent me a harvest of similar cases.

A young man in our employ had dysentery following malaria and being careless of medicine and diet grew worse and in spite of remonstrance called for a wheelbarrow to go to his mother fifteen miles off. I gave him a supply of Quinine, Ipecac., &c., and thought I should never see him again. But on arrival home he took remedies faithfully and dieted, and on 35th day came back to get work.

Several itinerating efforts were of interest. A private gentleman in a large town suffered from dislocated jaw, which I set on 7th day, the next day the crowd of sick people was overwhelming. With thanks for the grant of One Hundred and Fifty Dollars, I am &c.

H. M. McCANDLISS, in charge.

REPORT OF SZ UI DISPENSARY FOR 1890.

The medical work at the Sz Ui Dispensary has gone on as usual but not without interruption. The high water in the summer damaged the building so much that it had to be repaired, involving some extra expense as well as a temporary cessation of the work of seeing patients.

The medical assistant, in addition to his work at the Dispensary, has visited the neighboring market towns, where many have applied for relief from their ailments.

The chief diseases prescribed for have been rheumatism, malarial fever, anæmia, dyspepsia, various eye and skin complaints, incised wounds, toothache, abscesses and ulcers.

The minor surgical operations performed have been as follows:—

	<i>Men.</i>	<i>Women.</i>	<i>Total.</i>
Opening abscesses	15	22	37
Entropium relieved	12	6	18
Teeth Extracted	22	14	36
Carious bone removed	1	—	1
	<u>50</u>	<u>42</u>	<u>92</u>

The number of patients prescribed for during the year has been :—

Men.....	3,635
Women	2,077
	<hr/>
	5,712

The increased number of patients attended to has been mainly due to the frequent visits paid to the neighboring towns on market days.

The Expenses of the Dispensary have been as follows :—

Salary Medical Assistant	\$ 78
Rent.....	12.96
Repairs	53.22
Chinese Medicine and Sundries	20.92
Medicines from Dr. Swan.....	31.50
	<hr/>
	\$196.60
Appropriation for 1890.....	150
	<hr/>
Due Baptist Mission.....	\$46.60
Balance due January 1st, 1890	17.27
	<hr/>
Balance due January 1st, 1891	\$63.87

Respectfully submitted,

R. H. GRAVES.
